

AMENDMENTS TO THE CLAIMS:

Claim 1 – 19 (canceled)

Claim 20 (new): A splash-prevention device comprising a sheet of paper that can be flushed away with the soil water in the toilet actions, containing plurality of floating arms.

Claim 21 (new): The splash-prevention device of claim 20, wherein the said floating arms are formed by precutting means into the said sheet of paper.

Claim 22 (new): The splash-prevention device of claim 21, wherein the said floating arms are in number of four to eight.

Claim 23 (new): The splash-prevention device of claim 20, wherein the said sheet of paper containing functional agents.

Claim 24 (new): The splash-prevention device of claim 23, wherein the said functional agents including disinfectants.

Claim 25 (new): The splash-prevention device of claim 20, wherein the said floating arms are formed by precutting means into the said sheet of paper, the said sheet of paper is made of porous material; the said sheet of paper further comprising wax coating to maintain its buoyancy, wherein the said sheet of paper further containing disinfectants, wherein the said floating arms are in number of four to eight.

Claim 26 (new): A splash-prevention device comprising a sheet of paper that can be flushed away with the soil water in the toilet actions, wherein the said sheet of paper comprising means for substantially complete coverage over the surface of the liquid

within the outer periphery of the said sheet of paper and means for the passage of substantially solid object through the said sheet of paper.

Claim 27 (new): A splash-prevention device of claim 26, wherein the said means for substantially complete coverage over the surface of the liquid and means for the passage of substantially solid object include plurality of floating arms.

Claim 28 (new): A splash-prevention device of claim 27, wherein the said floating arms are formed by precutting means into the said sheet of paper.
